## Series Luno

SURFACE MOUNTED

The simplicity of the Luno suits every interior – traditional, modern, raw. These are plafonds with an integrated LED source of high quality, and colour-rendering index CRI $\geq$ 95. The lack of visible mounting screws highlights the minimalism of the light fittings, increased tightness up to IP44 allows the lamp to be installed in a bathroom. The milk aperture with a sandblasted glass structure gives a soft, pleasant, and even light, while eliminating the glare effect. Two diameter sizes and three heights of luminaire allow you to create interesting arrangements on the ceiling.
